Imap settings for bellsouth.net account

Bellsouth.net (AT&T) provides IMAP access to your Bellsouth.net (AT&T) account, so you can connect to your email from mobile devices and desktop email clients. This means you don't have to use Bellsouth.net's webmail interface! You can check your email and send messages using other email programs (like Mailspring, Outlook Express, Apple Mail, or Mozilla Thunderbird). Using desktop email applications can improve your workflow. They typically offer more options, and your email is still available on your computer when you're disconnected from the internet. Setup Your Bellsouth.net Account with Your Email Program Using IMAP To access your Bellsouth.net email account from a desktop email program, you'll need the IMAP and SMTP settings below: Bellsouth.net (AT&T) IMAP Server imap.mail.yahoo.com IMAP port993 IMAP securitySSL / TLS IMAP usernameYour full email address IMAP passwordYour Bellsouth.net password Bellsouth.net (AT&T) SMTP Server smtp.mail.yahoo.com SMTP port465 SMTP securitySSL / TLS SMTP usernameYour full email address SMTP passwordYour Bellsouth.net password Need a desktop email application? Mailspring is free, packed with great features, and you can try it alongside your existing email program. It's built with love for Mac, Linux, and Windows. 📧 Download Mailspring Free See How > See How > See How > Bellsouth email services are widely spread especially in the states and are mostly trusted by users because of their trust in AT&T ISP. Although, email services come with their share of challenges. Today, in this blog, we are going to discuss one such issue with Bellsouth email, i.e. issue with setting up Bellsouth email setting. Unlike Gmail or other most popular emails, Bellsouth email requires you to enter the Bellsouth email settings manually. We know it all seems very troublesome and it is a true fact. Entering email settings manually increases the chances of making mistakes that can lead to feeding incorrect settings and therefore face trouble with sign up.If you are also trying to set up Bellsouth email settings and need help, then you've got to read the rest of the blog. This blog is also helpful to those who are looking for Bellsouth email Settings, Bellsouth Email Server Settings, Bellsouth Email Settings for Outlook, Bellsouth POP3 Settings, and Bellsouth IMAP Settings.Good Luck Then! Setup Bellsouth Email Settings On OutlookEver used a Hotmail account on Outlook? Then you must be aware of how easy it is to set up. All you need is to enter the account credentials and that's it. Well, setting up a Bellsouth email on Outlook is not even nearly easy as that. Because Bellsouth email is a third-party email client, you are required to enter the Bellsouth email settings for POP3 SMTP manually on Outlook to set it up.We are not saying it's impossible but you will surely need to put in a lot of effort than you put into signing up for your other accounts. Let us make it all easy for you. Just follow the below steps one by one and finish setting up your Bellsouth.net Outlook Settings in a couple of minutes.Open the Outlook program on your computer and click on File.Click the Add Account option and then select Manual Configure Server Settings or Additional Server Types.Hit the Next button and then select Yes.Now you need to enter your Bellsouth email address and name in the given fields.Click on IMAP and POP option and then hit the Next button.Enter imap.mail.att.net in the Incoming Mail Server field.Enter smtp.mail.att.net Outgoing Mail Server field.When prompted enter your Bellsouth email credentials that include email address and password.Click on the More Settings and then enable My Outgoing Server (SMTP) Requires Authentication as well as Use Same Settings As My Incoming Mail Server option.Go to the Advanced tab and check the incoming server port. The Port number should be set to 995, if it is not then update it right away.Set the Outgoing Server port to 465.In the Use the following type of encrypted connection option, select SSL and then hit Finish.You should be able to use your Bellsouth email after performing the above procedure. In case you face any trouble, try the above setup procedure once again but this time be more careful. If you can't set up your Bellsouth email using the above steps after all, then we suggest you change the IMAP settings to POP settings. Replace imap.mail.att.net with pop.mail.yahoo.com and smtp.mail.att.net with smtp.mail.yahoo.com.Conclusion:After configuring your Bellsouth Email Settings as mentioned above, we hope you are able to send or receive email without any problem. However, if due to any reason you are still not able to set up your Bellsouth email, then you should consider talking to our Bellsouth Email Exerts right away.se who are looking for Bellsouth email Settings, Bellsouth Email Server Settings, and Bellsouth Email Settings for Outlook.Source: what are the email settings for bellsouth net. is bellsouth.net pop3 or imap
